@GypsyTravellerM

The Traveller Movement

## General

- Do you know how many Gypsy, Roma and Traveller people are in your constituency?
- What is your plan to engage with GRT people? (How will you and your office be accessible to GRT people?)

## Health

- Travellers experience discrimination in the health system, how will you improve this?

## Education

- What are the pledges in your manifesto towards education and how will this accommodate Gypsy, Roma and Traveller culture?

## Accommodation and Sites

- Have you visited a Traveller site? If not, why not?
- What is the local plan for GRT accommodation? (social housing, private renting, planning matters, sites, negotiated stopping)

## Discrimination

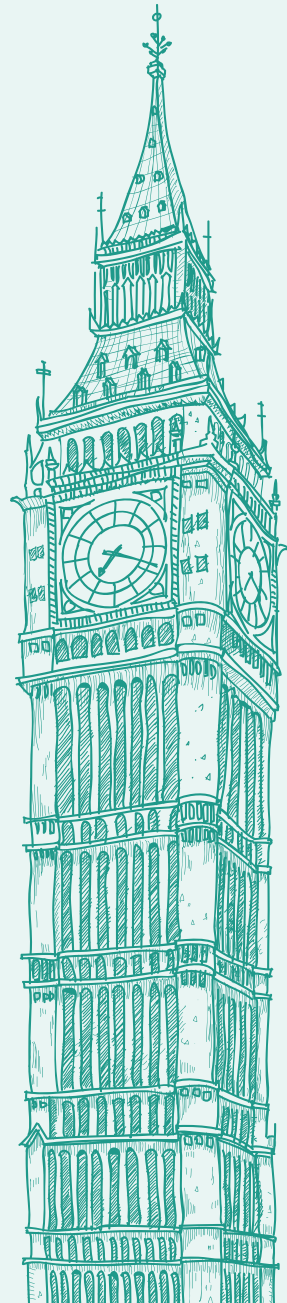

- What are you going to do about tackling prejudice, discrimination and hate crime against Gypsy, Roma and Traveller people?
- Will you pledge to work with Travellers and not to engage in anti-Traveller hate speech when you carry out your duties?

## Employment

- Are you aware many Gypsies and Travellers have their own businesses (many of which recycle and are sustainable)?
- What will you do for small businesses and self-employed people?

## Roma

- What are you doing to make sure Roma nationals of EU countries secure their immigration status before the **30 June deadline**, particularly children and their families?
